DYSPEPSIA.

It is a misery experienced when we

become aware that we possess a

diabolical disease called dyspepsia.

The stomach is the reservoir from which

every fibre and tissue of the body

draws its nourishment. Any disorder

of the whole system will be traced to

dyspepsia. It is the most common

and most dangerous of diseases, and

is the cause of many other diseases.

It is the cause of indigestion, of

SONOMA INDEX - TRIBUNE.

SONOMA, JUNE 7, 1890.

CITY OFFICIAL PAPER.

Hereafter obituaries, funeral notices, tributes of respect, etc., will be charged for at the rate of 10 cents per line. Communications upon matters of local or general interest solicited. Communications designed to call attention to any matter of limited or individual interest will not be inserted unless paid for as an advertisement. The author's real name must accompany all communications, not necessarily for publication, but as a guarantee of good faith. This rule will not be deviated from.

LOCAL BREVITIES.

The Occidental is a popular resort. Have your carpets cleaned at Gross. The Agua Caliente Springs Hotel is now open. The Occidental Hotel is a first-class resort. Schocken always has on hand fresh groceries.

Go to the Union Hotel for first-class accommodations. B. D. Moore of the Occidental keeps a first-class house. Go to H. Weyl's for Star flour. The best in the market. Old furniture made like new by Gross, east side Plaza.

For thorough work, use the San Jose Iron Riding Cultivator. The Occidental Hotel is fast becoming a popular place of resort. St. Joseph's convent closed last Wednesday for a six week's vacation. You can be accommodated at the Union Hotel according to your means.

Star flour at Weyl's is only \$1.20 per sack; per barrel, \$4.75. Guaranteed. The traveling public praise the Occidental Hotel, R. D. Moore, proprietor.

The clerk of the weather tells the Index Tribune readers that the present month will end with rain. If you wish to work all day and feel as fresh at night as when you began, use the San Jose Cultivator. French prunes contracted for. To be delivered at railroad station. Address G. L. Chapman, Napa Fruit Drier, Napa.

The Sonoma public school closed yesterday for a vacation, the length of which has not yet been determined by the Trustees. M. A. Flynn of the Sonoma House is improving his hotel by having a new floor put down in the dining room. It is Mr. Flynn's intention to give a social as soon as the work is completed.

The ladies of the M. E. Church will give an entertainment at Union Hall on the evening of Wednesday, June 11th. An excellent literary programme will be presented. Refreshments will also be served.

The San Jose Cultivator works deep or shallow, broad or narrow, by simple levers. Can use teeth or weed cutters. Simple, durable, effective. Machine may be seen on place, or tried. A. Dahms, agent.

The Agua Caliente Springs Hotel having been enlarged and refurbished, is again running under the old management and the proprietor will be pleased to see and entertain all his old friends and as many new ones as may favor him with call.

Mr. A. A. Vallejo, teacher of Spanish and music, has been quite successful with his classes in this place. Hereafter he will teach at the residence of Mrs. Gen. Vallejo every Friday and Saturday evening. Young ladies who so desire will also be taught at the same place.

The Democratic County Committee will hold a meeting to day in Santa Rosa for the purpose of making arrangements for the holding of a primary and county convention. County Committeeman Sparks and Robt. Howe, member of the State Central Committee, will be in attendance from this place.

G. L. Chapman, proprietor of the Napa Fruit Drier, was in town last Wednesday and paid us a visit. Mr. Chapman is prepared to contract for any quantity of French prunes. Farmers of Sonoma Valley would do well to confer with him before selling their prune crop to other parties. His address is Napa.

In the account of F. M. Luttrell's wedding anniversary, which appeared in these columns last week, the name of the belle of the evening, Miss Emily Kurtz, was unintentionally omitted as being among those present. The omission was caused by the printers' devil, and it was his first "out" since he commenced his apprenticeship in this office one month ago.

The election for School Trustee in this place last Tuesday resulted in the election of T. P. Cutler, a

Another Belle of the Boom.

O. Nordwell of San Francisco has obtained a judgment in the Superior Court of this county in his foreclosure suit. This suit was the outcome of the land boom inaugurated in this valley two years ago by parties whose ambition was to attain sudden wealth by manipulating the lands of others and without risking any money of their own. The scheme fell flat, however, although the boomers and their misguided supporters made a big "hoo-ray" to distract the attention of the public from the rapidly fizzling boom. The Nordwell place was one of several in this valley which the boomers bonded for town sites, villa and acre tracts, and orange and lemon groves. But alas, for human expectations! The boulevards and avenues and lovely residence sites and orange groves, which had an existence on paper only, will now have to give way to the horrid potato, the festive bean and the concealed pumpkin.

Commencement Exercises.

The fourth annual commencement exercises of the Sonoma Grammar School, Prof. Watson, principal, were held last evening at Union Hall to a crowded house. The programme reflected great credit upon the principal and the young lady graduates, Misses Florence Campbell, Zoe Clark, Mary Burke, Clara Cheney and Margaret Burke. Mrs. F. McG. Martin, Superintendent of Schools, was present and delivered a scholarly address and conferred the diplomas. The essays, written and read by the graduates, showed literary ability of no mean order, and Sonoma ought to feel proud of its public school, its teachers and scholars. The following was the evening's programme:

Essay, "The Sovereign Should be Educated," Florence Campbell. Music, "Sonoma Brass Band." Essay, "Ruins," Mary Burke. Essay, "American Egotism," Zoe Clark. Song, "Life's Story," Mr. Watson & pupils. Essay, "The Golden Day," Clara Cheney. Essay and Valedictory, "Our Voyage," Margaret Burke. Class of 1890. Address and Conferring Diplomas. Supt. Mrs. F. McG. Martin. Song, "Good Night," Class 1891. Music, "Sonoma Brass Band."

Fearfully Clubbed.

A tramp was set upon and beat with a club by some unknown party last Sunday afternoon. The assault took place on Third Street West near Spain, where the man was subsequently found in a semi-conscious condition. He had been beaten about the face and head in a fearful manner. Over the left eye was a lump as large as a man's fist, on the right side of the face a deep gash, while minor cuts and bruises covered his scalp. He was brought into town by Marshal Sparks and taken to the City Recorder's office, where his wounds were dressed by Dr. Davis. They were not dangerous and the man was enabled to take his departure hence the next day.

The Sonoma Public School and the American Flag.

The ceremony of raising the Stars and Stripes over the Sonoma public school yesterday afternoon took place in the presence of a large crowd of people and amid the booming of anvils. There was singing, recitations and an oration by School Trustee Robert Poppe. Great enthusiasm prevailed among the scholars, who have become thoroughly imbued with the spirit of patriotism since Prof. Watson assumed charge of the school five months ago.

The Senator Jones Tract.

Parties desiring to lease the reclaimed land on the Senator Jones tract are invited in another column to apply to Superintendent Pless on board the dredger Nevada. This land is very rich and after being plowed a few times has been known to produce 60 bushels of barley to the acre.

Bill of Exceptions to be Filed.

Mrs. Kate F. Warfield has been granted ten days time in Judge Dougherty's department of the Superior Court to file a bill of exceptions to the order removing her as executrix of the estate of the late Capt. Drummond. Mrs. Frances Drummond recently applied for letters of administration on the estate.

The Old, Old Story.

Wm. Green, the lumber merchant of Embarcadero, has brought suit against the Verano Land Company and the Sonoma Valley Land Company, of whom Geo. H. Maxwell was the managing director, for breach of contract. It is the old story.

THE CITY DADS.

A Chain Gang Ordinance Introduced--Other Matters.

The City Trustees met in monthly session last Wednesday evening, a full Board being present. Trustee Weyl introduced an ordinance relating to the establishment of a chain gang, which was passed to the second reading.

The Committee on Printing, Trustees Wegner and Litzius, reported as follows: Chairman Wegner stated that H. H. Granice of the Sonoma Index-Tribune offered to print all the blanks required by the Clerk, to-wit: assessment blanks, street tax receipts, claims against the city and license blank books, for \$25. Trustee Litzius, who evidently thought that the Index-Tribune was charging a fancy price for the city's printing, was somewhat taken back by the above bid, which was neither more nor less than has always been charged by this office for similar work done for the city. He braced up, however, and stated that he had received a tender to do the work from an outside printing office for the sum of \$27.50. On motion the contract was awarded to H. H. Granice, his bid being the lowest, and thus we were made to bleed.

All the bills against the city laid over from last month were ordered paid.

The following new bills were presented and ordered paid:

Geo. F. Hart, supplies, \$2.75
G. Aguilon, rock, 2.10
H. H. Granice, printing, 11.50
V. Jansen, labor, 1.50
Total, \$18.85

The following bills were allowed, but were laid over until next meeting, there being no money in the Treasury to pay them:

H. H. Granice, printing, \$25.00
W. T. Bordwell, labor, 34.00
G. W. Sparks, salary, 18.00
Total, \$77.00

On motion, the Committee on Fire and Water were instructed to investigate the necessity of placing a fire hydrant on First-street East south of Napa street and report at the next meeting.

It was moved by Trustee Litzius and seconded by Trustee Bulotti, that the compensation of Thos. Moss for street sprinkling for the season shall be \$50. So ordered.

The Street Committee were instructed to inquire of the property owners on Second-street East whether they want said street fifty or fifty-five feet in width.

No other business appearing the Board adjourned.

Mortality Among Cows.

W. L. Copeland lost a fine milch cow one day this week. She died a few days after giving birth to a calf. This makes ten valuable cows that have died in this place and vicinity within the past few months.

The vocal organs are strengthened by the use of Ayer's Cherry Pectoral.

Clergymen, lawyers, singers, actors and public speakers find this preparation the most effective remedy for irritation and weakness of the throat and lungs, and for all affections of the vocal organs.

COUNTY ITEMS.

The Petaluma fruit cannery started work last Tuesday with forty hands. Later in the season it will employ about 400. It is working on cherries at present.

Colonel McDonald of Santa Rosa, who has been threatened with lock-jaw for the past three weeks, has been pronounced out of danger and is now able to be out. His injury was caused by the running of a nail into his foot some months ago.

Alexander Evans, a farmer living near Petaluma, was seriously injured Tuesday, by having one wheel of his wagon run over his prostrate body. He had left his team standing while he was attending to some business at the steamer Gold's warehouse. His horses got frightened and started to run. Evans, in trying to catch them, was knocked down and a wheel passed over his body, badly injuring him internally.

A Haunted House.

This body of ours has been likened to a tenement. It often has a haunted apartment--the stomach. Sated by the eldritch spirit, dyspepsia, digestion flies and refuses to return. What can break the spell, what can raise the ban laid upon the unhappy organs? We answer unhesitatingly, Hostetter's Stomach Bitters, and we warrant in the response by the recorded testimony of myriads, covering a period of over a third of a century. A course of the Bitters, begun in any stage of the affliction, and persistently followed, will terminate in cure positive, not partial. The Bitters restore tone to the epigastric nerve, renews and purifies the juices exuding from the cellular tissue that act upon the food digestively, expels bile from the stomach and the blood, and promotes a regular habit of body. Malaria, kidney complaint, nervousness, rheumatism and neuralgia give way to this medicine.

For Dry Goods, Clothing, Groceries, Hardware, Cutlery, and also everything kept in a general merchandising store go to S. Schocken's north side Plaza, Sonoma.

For Sale--Twenty acres of the finest bottom land in Sonoma Valley for sale at \$115 per acre. Inquire at this office.

The Union Hotel under the management of C. J. B. is increasing in popularity every day.

THE JOHNSON LOCKE BAKING POWDER CO., Agents, San Francisco.

Hay cutting is in progress here, but we think that the demand is greater than the supply, for you know, Mr. Editor we, raise grapes.

J. G. Marcy, the popular smith of Sonoma, was in town last Saturday spending his time in repairing pots and kettles and talking French.

The iron bridge is completed but thus far no teams have crossed it. We hope the matter will soon be settled as the bridge is a public necessity.

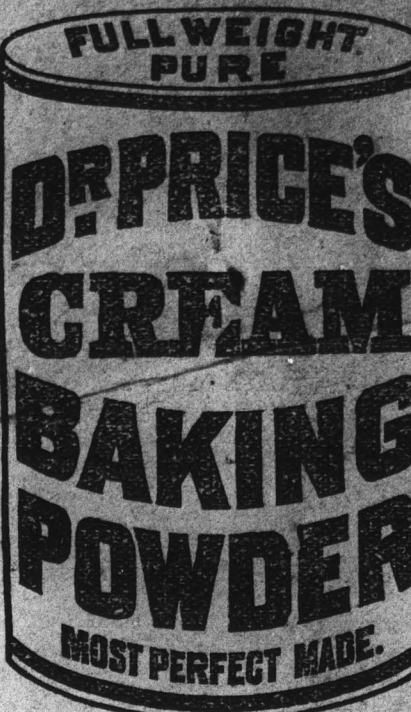

Petitioners are out for the appointment of a Constable in place of C. H. Crofoot, who is now in San Francisco. Several are in the field and the contest promises to wax warm.

There is talk of changing the present county road on the west side of the creek, leading to Sonoma, further up the hill, in order to avoid the usual winter landslides and washouts.

MARVELS OF HYPNOTISM.

Experiments Which Are Causing the Con-
stitution of the Experts.

The and I have ever held before my
eyes than, and which I hope I have
never lost from view, is this: To study
the hypnotic phenomena according to
a scientific method, and for
this purpose to employ processes purely
physical and which always can be
compared with one another, so that
the results obtained by means may be
rigorously tested by all observers who
shall use the same processes under the
same conditions. Take one example
from among a thousand. I present to
a woman patient in the hypnotic state
a blank leaf of paper and say to her:
"Here is my portrait. What do you
think of it?" "Is it a good likeness?"
After a moment's hesitation she an-
swers: "Yes, indeed, your photograph;
and you give it to me!" To impress
deeply in the mind of the subject this
imaginary portrait I point with my
finger toward one of the four sides of
the square leaf of paper, and tell her
that my profile looks in that direction;
I describe my clothing. The image
now being fixed in her mind I take
that leaf of paper and mix it with a
score of other leaves precisely like it.
I then, having over the whole pack to
the patient, bidding her to go over
them and let me know whether she
finds among these anything she has
seen before. She begins to look at the
leaves one after another, and as soon
as her eyes fall upon the one first
shown to her (I had made upon it a
mark which she could not see) she
exclaims: "That is my portrait!"

What is more curious still, if I turn
the leaf upside down, as soon as her
eyes rest upon it, she turns it over,
saying my photograph is on the ob-
verse. I then convey to her the order
that she shall continue to see the por-
trait even after the hypnotic has
passed! Then I awaken her and again
hand to her the pack of papers, re-
questing her to look over them. She
handles them just as before when she
was hypnotized, and utters the same
exclamation, "Look, your portrait!"
If now I tell her that she may retire,
she returns to her dormitory, and her
first care will be to show her compan-
ions the photograph I have given her.
Of course her companions, not having
received the suggestion, will see only
a blank leaf of paper, without any
trace whatever of a portrait, and will
laugh at our subject and treat her as a
visionary. Furthermore, this sugges-
tion, this hallucination, will if I wish
continue several days. All I have to
do is to express the wish to the patient
before awakening her.

The foregoing experiment has been
made hundreds of times by me and by
others, and the results have been un-
derstandably, their objectivity is as com-
plete as could be wished in researches
of the kind. Hypnotism is directly
amenable to our means of investiga-
tion, and must needs be an integral
part of the known domain of science;
to that goal our efforts ought to be di-
rected.—Cor. Forum.

How She Behaved.
The negro makes us laugh because
he will say things which he should
have left unsaid, and say them with-
out the least intention of giving of-
fense. An admirable illustration of
this sort of humor is given in Har-
per's. Briefly told it is as follows:
Samson, the colored janitor of an
apartment house in which Mr. and
Mrs. Robinson occupy a flat, is not
treated by their Irish cook with the
deference which he thinks due to his
position.

One morning when, at the going up
and down of the coal scuttle, Samson
had been worsted in a wordy encounter,
his wounded dignity could stand it no
longer. Stopping Mr. Robinson on
the front stairs, he complained to him
of his sharp-tongued servant.
What Samson wished to say was
that the girl assumed as much author-
ity as if she were one of the ladies of
the house. What he did say was this:
"Mr. Robinson, that girl of yours
has ordered me round, an' yelled at
me down the elevator shaft, an' I
blowed me an' jawed me until you'd
have thought it was Mrs. Robinson
herself!"

A Famous Scout's Nerve.
Biedler, the famous Montana scout,
was as intrepid as he was fertile of re-
sources in danger. One time at Miles
City he became one of the door to find
himself within twenty inches of the
muzzle of a 44 calibre revolver in the
hands of a noted desperado on whose
trail the deputy marshal had of times
camped.

"I'm going to blow the innards out
of your skull, you vigilante hound,"
quoth the bad man.
"Not with that thing," said "X"
(pseudonym), in a conversa-
tional, semi-querulous tone. "It
won't do."

Advice to Smokers.
If you are a smoker, and don't own
a cigar case, carry your cigars in your
upper waistcoat pocket, on the left
with the mouth end down. The con-
stant motion of the right arm (presum-
ing you are right handed) is sure to
crush the tobacco or loosen the wrap-
per if the cigar be on the right side,
and the same result is more readily at-
tained with the match end down. If
you have to let a cigar go out, do not
pull in the last puff, but blow it
through the burning end. This expels
the nicotine that would otherwise
gather at the mouth, and prevents the
cigar from having a rank taste. Ad-
vised, some smokers question whether
a cigar is not improved by this method
of reducing it to an "old soldier."—

There was a frog who lived in a spring.
He caught such a cold he could not sing.
Poor, unfortunate Batschian! In what a
sad plight he must have been. And yet his
misfortune was one that often befalls singers.
Many a once famous voice among those who
belong to the "golden age" is utterly spoiled
by "cold in the head," or on the lungs, or both
combined. For the above mentioned "cough-
er" we are not aware that any remedy was
ever devised; but we believe to know that all
human singers may keep their heads clear and
throats in tune by the timely use of Dr. Sage's
